## Subject index

Volume 44 (1997)

**Addiction Severity Index;** Cocaine; Hospitalization; Gender **44,** 35

**Adolescents;** Development; Substance use; Comorbidity **44,** 69

**Adverse effects;** Amphetamine; Cocaine; Ecstasy **44,** 87

**Aggression;** Antisocial personality disorder; Cocaine; Human **44,** 175

**Alcohol;** Cigarettes; Cocaine; Dependence; Marijuana; Population **44,** 11

**Alcoholism;** Comorbidity; Spatial memory; Visuospatial function **44,** 167

**Alcoholism;** Dependence; Free radicals; Manganese superoxide dismutase; Oxidative stress **44,** 151

**Alcoholism;** HIV infection; Sex behavior; Epidemiology; Substance abuse **44,** 47

**Amphetamine;** Adverse effects; Cocaine; Ecstasy **44,** 87

**Amphetamine;** Phenylethylamine; Rhesus monkey; Drug discrimination **44,** 79

**Antinociception;** Protein kinase; Morphine tolerance; Hyperalgesia **44,** 41

**Antisocial personality disorder;** Aggression; Cocaine; Human **44,** 175

**Anti-social personality disorder;** Cocaine; Evoked potentials; Family history; P300; Relapse **44,** 1

**Attitude;** Personality; Religion; Substance use **44,** 95

**Cerebrum;** Phosphatidylethanol; Phospholipase C; Phospholipase D; Ethanol **44,** 117

**Cigarettes;** Alcohol; Cocaine; Dependence; Marijuana; Population **44,** 11

**Clonidine;** Lofexidine; Opiate withdrawal **44,** 57

**Cocaine;** Addiction Severity Index; Hospitalization; Gender **44,** 35

**Cocaine;** Adverse effects; Amphetamine; Ecstasy **44,** 87

**Cocaine;** Aggression; Antisocial personality disorder; Human **44,** 175

**Cocaine;** Alcohol; Cigarettes; Dependence; Marijuana; Population **44,** 11

**Cocaine;** Anti-social personality disorder; Evoked potentials; Family history; P300; Relapse **44,** 1

**Comorbidity;** Alcoholism; Spatial memory; Visuospatial function **44,** 167

**Comorbidity;** Development; Substance use; Adolescents **44,** 69

**Dependence;** Alcohol; Cigarettes; Cocaine; Marijuana; Population **44,** 11

**Dependence;** Alcoholism; Free radicals; Manganese superoxide dismutase; Oxidative stress **44,** 151

**Development;** Substance use; Adolescents; Comorbidity **44,** 69

**Diagnostic interview;** Diagnostic reliability; Multinomial regression; Psychiatric assessment; Reliability **44,** 133

**Diagnostic reliability;** Diagnostic interview; Multinomial regression; Psychiatric assessment; Reliability **44,** 133

**Drug discrimination;** Flumazenil; Mecamylamine; Midazolam; Nicotine; Rats **44,** 31

**Drug discrimination;** Phenylethylamine; Amphetamine; Rhesus monkey **44,** 79

**Ecstasy;** Adverse effects; Amphetamine; Cocaine **44,** 87

**Epidemiology;** HIV infection; Alcoholism; Sex behavior; Substance abuse **44,** 47

**Ethanol;** Phosphatidylethanol; Phospholipase C; Phospholipase D; Cerebrum **44,** 117

**Evoked potentials;** Anti-social personality disorder; Cocaine; Family history; P300; Relapse **44,** 1

**Family history;** Anti-social personality disorder; Cocaine; Evoked potentials; P300; Relapse **44,** 1

**Female adolescents;** Substance use; Risky sexual behaviour **44,** 157

**Flashbacks;** Methamphetamine psychosis; Norepinephrine; Stressor; Threatening experience **44,** 183

- Flumazenil;** Drug discrimination; Mecamylamine; Midazolam; Nicotine; Rats **44**, 31
- Free radicals;** Alcoholism; Dependence; Manganese superoxide dismutase; Oxidative stress **44**, 151
- Gender;** Cocaine; Addiction Severity Index; Hospitalization **44**, 35
- Gender;** Methadone maintenance; Race; Smoking; Smoking cessation **44**, 123
- Heart-rate;** Nicotine; Smokers; Non-smokers; Mood; Subjective effects; Tolerance **44**, 105
- HIV infection;** Alcoholism; Sex behavior; Epidemiology; Substance abuse **44**, 47
- Hospitalization;** Cocaine; Addiction Severity Index; Gender **44**, 35
- Human;** Aggression; Antisocial personality disorder; Cocaine **44**, 175
- Hyperalgesia;** Protein kinase; Morphine tolerance; Antinociception **44**, 41
- Lofexidine;** Clonidine; Opiate withdrawal **44**, 57
- Male;** Psychopathy checklist-revised; Methadone patients **44**, 143
- Manganese superoxide dismutase;** Alcoholism; Dependence; Free radicals; Oxidative stress **44**, 151
- Marijuana;** Alcohol; Cigarettes; Cocaine; Dependence; Population **44**, 11
- Mecamylamine;** Drug discrimination; Flumazenil; Midazolam; Nicotine; Rats **44**, 31
- Methadone maintenance;** Gender; Race; Smoking; Smoking cessation **44**, 123
- Methadone patients;** Psychopathy checklist-revised; Male **44**, 143
- Methamphetamine psychosis;** Flashbacks; Norepinephrine; Stressor; Threatening experience **44**, 183
- Midazolam;** Drug discrimination; Flumazenil; Mecamylamine; Nicotine; Rats **44**, 31
- Mood;** Nicotine; Smokers; Non-smokers; Subjective effects; Heart-rate; Tolerance **44**, 105
- Morphine tolerance;** Protein kinase; Antinociception; Hyperalgesia **44**, 41
- Multinomial regression;** Diagnostic interview; Diagnostic reliability; Psychiatric assessment; Reliability **44**, 133
- Nicotine;** Drug discrimination; Flumazenil; Mecamylamine; Midazolam; Rats **44**, 31
- Nicotine;** Smokers; Non-smokers; Mood; Subjective effects; Heart-rate; Tolerance **44**, 105
- Non-smokers;** Nicotine; Smokers; Mood; Subjective effects; Heart-rate; Tolerance **44**, 105
- Norepinephrine;** Flashbacks; Methamphetamine psychosis; Stressor; Threatening experience **44**, 183
- Opiate withdrawal;** Clonidine; Lofexidine **44**, 57
- Oxidative stress;** Alcoholism; Dependence; Free radicals; Manganese superoxide dismutase **44**, 151
- P300;** Anti-social personality disorder; Cocaine; Evoked potentials; Family history; Relapse **44**, 1
- Personality;** Religion; Attitude; Substance use **44**, 95
- Phenylethylamine;** Amphetamine; Rhesus monkey; Drug discrimination **44**, 79
- Phosphatidylethanol;** Phospholipase C; Phospholipase D; Ethanol; Cerebrum **44**, 117
- Phospholipase C;** Phosphatidylethanol; Phospholipase D; Ethanol; Cerebrum **44**, 117
- Phospholipase D;** Phosphatidylethanol; Phospholipase C; Ethanol; Cerebrum **44**, 117
- Population;** Alcohol; Cigarettes; Cocaine; Dependence; Marijuana **44**, 11
- Protein kinase;** Morphine tolerance; Antinociception; Hyperalgesia **44**, 41
- Psychiatric assessment;** Diagnostic interview; Diagnostic reliability; Multinomial regression; Reliability **44**, 133
- Psychopathy checklist-revised;** Methadone patients; Male **44**, 143
- Race;** Gender; Methadone maintenance; Smoking; Smoking cessation **44**, 123
- Rats;** Drug discrimination; Flumazenil; Mecamylamine; Midazolam; Nicotine **44**, 31
- Relapse;** Anti-social personality disorder; Cocaine; Evoked potentials; Family history; P300 **44**, 1
- Reliability;** Diagnostic interview; Diagnostic reliability; Multinomial regression; Psychiatric assessment **44**, 133
- Religion;** Personality; Attitude; Substance use **44**, 95
- Rhesus monkey;** Phenylethylamine; Amphetamine; Drug discrimination **44**, 79
- Risky sexual behaviour;** Substance use; Female adolescents **44**, 157
- Sex behavior;** HIV infection; Alcoholism; Epidemiology; Substance abuse **44**, 47
- Smokers;** Nicotine; Non-smokers; Mood; Subjective effects; Heart-rate; Tolerance **44**, 105
- Smoking cessation;** Gender; Methadone maintenance; Race; Smoking **44**, 123
- Smoking;** Gender; Methadone maintenance; Race; Smoking cessation **44**, 123

**Spatial memory;** Alcoholism; Comorbidity; Visuospatial function **44**, 167

**Stressor;** Flashbacks; Methamphetamine psychosis; Norepinephrine; Threatening experience **44**, 183

**Subjective effects;** Nicotine; Smokers; Non-smokers; Mood; Heart-rate; Tolerance **44**, 105

**Substance abuse;** HIV infection; Alcoholism; Sex behavior; Epidemiology **44**, 47

**Substance use;** Development; Adolescents; Comorbidity **44**, 69

**Substance use;** Personality; Religion; Attitude **44**, 95

**Substance use;** Risky sexual behaviour; Female adolescents **44**, 157

**Threatening experience;** Flashbacks; Methamphetamine psychosis; Norepinephrine; Stressor **44**, 183

**Tolerance;** Nicotine; Smokers; Non-smokers; Mood; Subjective effects; Heart-rate **44**, 105

**Visuospatial function;** Alcoholism; Comorbidity; Spatial memory **44**, 167
